Gujan-Mestras 19-12-2021

Dear governing body brothers,

Thank you for your response to my letter of July 2021. You reassured me by confirming my freedom in terms of therapeutic care.

However, as Update #6, your communications are not seen that way at all.

Please could you not force us to get vaccinated! We are under enormous pressure from governments and those around us. It is very difficult to apply biblical principles such as those written in the last article on [www.jw.org](https://www.jw.org/en/bible-teachings/questions/good-decisions-bible-verses/): <https://www.jw.org/en/bible-teachings/questions/good-decisions-bible-verses/>

It has been more than 10 times that we have been subjected to this constraint from you or from our branch (Update, letter).

This produces serious breaches of the elementary principles of life: in congregations, elders unambiguously indicate that brothers and sisters must be vaccinated to obey to the governing body. A significant proportion (30%) of brothers and sisters were vaccinated against their will. Some are dead, others are disabled and others are not in accordance with their conscience. Brothers and sisters openly criticize the unvaccinated, refuse to invite them, ask them to take a test before receiving them at home.

Please leave us free to treat ourselves as we wish (John 8:32)!

I pray daily that Jehovah will guide you and that you remain neutral in the affairs of the Satan-dominated world.

Receive all my brotherly affection.

Ghislain Messe
